

LSR-Vis L series

Sixty logos built around one big L, with SR-Vis set under it or sitting on its foot. Twenty ways of treating the L, three versions of each: the bent pipe, a wellhead, a stem made of aphrons, an outlined pipe, the name carried inside the foot, and more. Click any logo to see it on a truck door, a field ticket, a hard hat and as an app icon. Star the ones you like and use Copy shortlist to send me the codes.
